

PORTABLE TRAY FOR VEHICLE INTERIOR

ABSTRACT OF THE DISCLOSURE

A portable tray for use at multiple locations of the interior of a vehicle includes a body adapted to be operatively supported to the interior of the vehicle and defining at least one substantially planar work surface. The tray also includes a support mechanism connected to the body and adapted to removably support the body to structural components of the interior of the vehicle such that the tray can be manually moved and used at various locations within the interior of the vehicle.
